
Title: House of the Chalice

Author:

In the annals of our
realm's history there can
be found references to a
greater darkness, a time
of warfare and bitter
dispute, a time of great
suffering and
overwhelming chaos. Many
a man fought to establish
control, looking to quell
the anarchy among the
warring houses. Many
great houses fought for
the right to govern, to
rule. Yet, when one Great
House siezed the mantle
of power, it was only a
matter of time before
internal and external
strife would topple these.
The penalty for failure
would, more often than
not, lead to total ruin.
And so it went, chaos
feeding ruin, ruin feeding
misery. The lust for
power and control sullied
many a great name, and
many respected leaders
sunk to great depths in
their attempts to harness
power for their own ends.
But in this chaos arose a
house steeped in the
traditions and dogma of
the Virtues. Led by their
founder Lord Xavier, their
dogged adhearance to a
strict code of Honor,
even when dealing with
their most loathed
enemies, turned the tides
and won them great
respect amongst the
citizen of greater Trinsic.
Their success in Trinsic
earned them accolades
from throughout the

realm, and garnered them
the Honorific of The
House of the Chalice. To
this day the legendary
House of the Chalice is
known as the catalyst
that inspired peace and
unity among the citizens
of Trinsic.
